ACT IV · LEVEL 2

Tell it about your repository

```
$ review-loop init
created  ./REVIEW.md
created  ./REVIEW.sweeps
created  ./REVIEW.gate
ready    ./reviews/
created  ./.review-loop.env

$ review-loop doctor
8 ok, 0 missing
```

It never overwrites. Edit REVIEW.md a little: the reviewer reads it first.

Run on Neon Smash (github.com/kenchris/soma-breakout).
