ACT II · WHY IT MATTERS

...and the rest of the map

THE POST	IN REVIEW-LOOP
Fix recurring findings at the source	Sweeps in `REVIEW.sweeps`, and `/retro`
Review has to converge	Three cycles, only the new diff, fix the class
Past incidents as the reviewer's test set, noise measured	`/review-eval`: recall and noise
Merge queue, feature flags, gradual release	Not covered. Risk tiers: planned

Practices from Osmani, Lunt and Wang, 15 October 2026. The right column is review-loop's own README.
